

COLLEAGUE PRAISE FOR MICHAEL E. PLATT, M.D.

“Only a master of Dr. Platt’s stature, with his enviable knowledge and command of human physiology, can weave a medical tapestry that is understood and appreciated by all, professionals as well as non-medical minds!”

– **M. Sohail A. Qureshi, M.D., London, England**

“I’m very proud, and at the same time relieved, that we have doctors like Dr. Platt, truly interested in patient’s complaints and devoted to preventive medicine.”

– **Dr. Luis Cesar Anzoategui, professor and physician, Mato Grosso do Sul, Brazil**

“My first feeling was honestly skeptical. In many times and places I have learned that many, in fact, most doctors, don’t seek fundamental change however essential it may be. It’s too inconvenient. It makes waves. It interferes with ‘congeniality’. And so I began to read Dr. Platt’s book. By the third page I happily realized that here was a kindred spirit advocating another face of fundamental therapy, his from the perspective of considering physiologically dosed hormones and their pervasive influence on bodily function. Dr. Platt, you have my respect and admiration.”

– **Paul H. Goodley, M.D., orthopedic surgeon, Telz Stone, Israel**

“THE MIRACLE OF BIO-IDENTICAL HORMONES is an eloquent expression of truly holistic medicine. The knowledge contained within is the product of a lifetime of clinical observation, by a doctor who clearly loves medicine. It offers explanations for so many things I see everyday in my clinic, for which previously I had no explanation. I am a better clinician for reading this book.”

– **Dr. Richard Lippman, Swedish Medical Association and International Hormone Society member**

“Dr. Platt looks straight ahead, moves forward, breaking the rules, always putting his patient’s interests above all... and he learns from the patients’ own experience. Then he puts it all together and comes up with the new facts plus the science behind it. This kind of behavior, curiosity and vision will create more understanding and ultimately solve some ‘incurable’ diseases.”

– **Mauro S Pentead, M.D. , orthopedic surgeon, Sao Jose Rio Preto, Sao Paulo state, Brazil**

“He’s part of a whole new paradigm in medicine – wellness... I was skeptical at first and have discovered he is amazing.”

– **William Rose, PhD., psychologist, wellness book author, Palm Springs, California**

“I am currently boarded by the A4M and through Cenegenics. I began my foray into ‘age managed’ medicine in 1996 with Dr. Ron Rothenberg at Scripps. I must tell you that I just completed the book and it has been remarkable. Without question, it is the finest text for organizing medical concepts and information that I have come across. Well done!”

– **Tom Schneider, M.D., FACS, professor and surgeon, Pensacola, Florida**

“As a practicing orthopedic surgeon in Jakarta, Indonesia, with great interest in preventive medicine, I strongly recommend Dr. Platt’s book as it is a fantastic one, the only kind of book that has

prompted me to fly from the other side of the globe to meet the author in person.”

– **Henry Suhendra, M.D., FICS**

“I have known Dr. Platt for 25 years. He is a brilliant diagnostician. His book is an example of the way medicine should be practiced.”

– **Mort Farina R. Ph., Compounding Pharmacist, Palm Desert, California**

“This is the most important health book published this year, or any year for that matter. It’s an easy, fascinating, highly informative, even life-changing read.”

– **Barbara Morris, R. Ph., Compounding Pharmacist, author of Put Old on Hold**

“Easy to read and filled with remarkable, real life patient histories and case studies documenting dramatic results from achieving a balance with bio-identical hormones. This book will empower you to seek hormone balance, gain control of your weight and get on the road to wellness in your life.”

– **Dana Reed-Kane, Pharm.D. , FIACP,  
contributor to International Journal of Pharmaceutical Compounding, Tuscon, AZ**

“Everything Dr. Platt does makes a lot of sense; his work is pure artistry.”

– **Gene Steiner, R. Ph., Compounding Pharmacist and Healthy Advice Radio Host,  
Los Angeles and Palm Desert, California**
